CONSERVATION PROJEKT

ÖVVÖ - Moliwe River

CLUB/ORGANIZATION

-

CAPACITY

1000 liters, and garden ponds in summer

VIVARISTIC EXPERIENCE

since 1975

African Cichlids (*Pelvicachromis taeniatus nigeria* red, green, nange, dehane, moliwe, *Pelvicachromis subocellatus*, *subocellatus matadi*, *Pelvicachromis pulcher*, etc.)

South American Cichlids (*Nannacara anomala*, *N. taenia*; *Herotilapia multispinosa*, *Apistogramma* sp., etc.)

Corydoras (*weitzmani*, *venezuela orange*, *gossei*, etc.); *Ancistrus* sp. (L144, L045, super red, rio paraguay, LDA16, etc.); Livebearers (*Poecilia wingei*, *Xiphophorus xiphidium*, *Goodeidae*, etc.)

breeding success: *Pelvicachromis taeniatus nigeria* green, *P. subocellatus*, *s. matadi*, *P. pulcher* etc.; *Loricaria filamentosa*, *Skiffia multipunctata*, *Skiffia francesae*, *Xenotoca doadrioi*, and many more of those described above.

Motive force

In 2017, I joined the Goodeid Working Group where I undertook 3 breeding activities. I feel it is important to try to rescue fish at risk of extinction, and I am happy to support it with my own means. The cichlids in the program are one of my personal favorites.
